Summary of Meeting

- We showcased our previous work
 - A form where users can enter their credit card processor, customer ID, etc to retrieve results. As of now, when “submit” is clicked, nothing happens
 - We’re going to put an optional box where the user inputs their credit card #, expiration date, and CVV
 - Rohan is debugging his XGBoost model right now, since there is an earlier version of XGBoost
- We spent most of the meeting debugging rebecca’s code
 - She tried to import xgboost into her code; however, there were a lot of version issues
