Action Items
- See Task table below

Summary of Meeting
- Discussed our findings
  - Helpful website for EDA's:
    https://www.analyticsvidhya.com/blog/2021/04/rapid-fire-eda-process-using-python-for-ml-implementation/
  - https://towardsdatascience.com/data-visualization-for-machine-learning-and-data-science-a45178970be7
- Task Allocation

Task	Name	Completed?	Deadline
Put multiple graphs in one notebook section https://seaborn.pydata.org/generated/seaborn.FacetGrid.html	Everyone that thinks they see a good graph	☐	
PDF report (We decided we will use the 2 plots already on the github as well as Rebecca's V1, V2, …V28 plots)	Siya	☐	
V1, V2,..V28 plots	Rebecca		
Markdown headers for graphs that describes what they show/ what the code means (~3-4 sentences)	Arvin, Rebecca	☐	
~~Make collaborative notebook https://code.visualstudio.com/learn/collaboration/live-share~~		~~(Decided to not go with this option;~~ will instead push to github)	
Pipeline - scaling	Max
